SAVING SAM!

Poor Sam is a Snake who was sailing down a jungle river. After encountering the deadly rapids, his boat capsized. Sam cannot swim and his life vest is trapped under his boat. He now sits on top of his boat with his oar, contemplating what to do next. You must **SAVE SAM** by flipping the boat back over, sitting Sam in it and popping on his Life Vest. However, you cannot touch Sam. You may use the paperclips as well as the 'oar' provided but you cannot stab him or let him fall into the water.
